Your Guide for Medical Treatment in Turkey

You are looking for a treatment abroad...

We know that it is quite difficult to make a decision, especially when it comes to your or your loved ones' health and getting treatment abroad. It's not a decision to be taken alone, without the consent of a medical professional. You and your family probably have doubts.

If you have the approval of a physician, preferably, your treating physician who knows you the best, you must contact other experienced consultants or organizations in that field.

During your researches, you may be confused with the choices of plenty of physicians, hospitals, and medical technologies.

Remed is here to be your and your physician's expert guide on your complicated path to decide among the best options regarding the budget and the quality.

But as you know, the decision is only the starting point of the process. We collaborate with you, your consultants and/or your physician to plan and organize your travel, your accommodation and your treatment process in details. We pick you up from the airport, accompany to your hospital, assist you and your companions during all your medical treatment process as well as the post-treatment period, until your return home. We're also a point of contact for your family members who need information about you while you're here in Turkey, even after your return home for any further questions.

We can take care of every detail and leave you with a peace of mind...

How Does “TurkeyForTreatment” Exclusive Program Work?

Before Arrival

1 – Application and Unique Identity Number: Once you apply to Remed Assistance our expert operators create a file and provide you with the Unique Identification Number which will be used to track all your treatment process from beginning to the end. It also lets you access a private software.

2 – Info sharing: You share your medical reports, blood tests, x-rays, etc. by e-mail; fax or by uploading them on the Remed software. Remed collects all your preferences and information on your current condition.

3- Preliminary Evaluation and Treatment Plan: The medical department of Remed, consisting of doctors with expertise in certain fields consult your files, get in touch with the most relevant hospitals and clinics and set up the most convenient treatment plan for you considering the best technical capabilities and most advantageous costs regarding your specific treatment. You are provided with a detailed Treatment Plan in Turkey with several options.

4 – Travel and Accommodation Arrangements: Once you agree with the plan you were offered, the assistance team organizes and suggests the most appropriate flight plans (regular flight or air ambulance) after taking the opinion of medical directors.

On Arrival and Treatment Period

5- Personal Assistant: Remed provides you with a personal assistant to support you throughout your entire stay in Turkey. Your PA will welcome you at the airport, give you all the necessary information and guidance, help with the language issues and make sure your experience in Turkey is smooth and peaceful.

6- Treatment Period Management: One of the important moments in your treatment period is when an unexpected consequence arises. Remed stays in constant contact with the medical teams of your treatment facility and follows all the medical procedures until your last day. If you need to be transferred to a different medical facility due to an issue which arises during your treatment, Remed is able to react and adapt to make the necessary emergency arrangements with its strong network all around Turkey.

7- Decision & Return Journey Organization: After the approval of the medical team, Remed will organize your homeward bound. Remed will keep all patient information safe in order to respond to any subsequent request.
